Lac La Biche Herald

Vol. 1, No. 19 EDMONTON, ALBERTA, FEBRUARY 12, 1949 SUBSCRIPTION $2.00 PER YEAR

LAC LA BICHE NEWS

LAC LA BICHE.—Mr. and Mrs. Bob Howlett are leaving Lac la Biche Thursday, Feb. 10, for Montreal where Bob will attend the Hudson Bay Fur Training School. The course lasts from 4-6 months. Bob will then obtain a position as post manager at a post of his own.

Tony Varze and the Binsmeads sponsored a farewell party for Howletts on February 5. About 25 guests were present. Dr. Cadzow, Dr. Brinsmead and Tony Varze each gave a little speech and complimentary talk of appreciation for Mr. Howlett's contributions to sports, hockey and baseball. A lovely silver table Ronson lighter was presented to them by Tony Varge on behalf of those present. The guests danced and sang, Tony and Aveleigh doing justice to the singing. A delightful tea was served.

A tea was held at the home of Mrs. Dumas, February 3, to raise funds for the W.I.

Mr. and Mrs. Francois Parent are visiting Mrs. Parent's brothers, Ray and Art, in Providence, R.I. Francois says it's nice not to have to wear a parka.

Camille Ostigny and Raymond Dionne have gone to Trout Lake to fish. Good fishing, Camille.

BLUE JAY NEWS

BLUE JAY. — The Grassland nurse, Miss Williams, visited the Blue Jay school and inoculated the school children and some of the adults of the community on Feb. 4. The inoculation was immunization from diphtheria. Mr. Mike Klimuik furnished the transtation for Miss Williams.

Mr. Alex Moroz is in Lac la Biche hospital with an attack of pneumonia. Mr. Harry Fisher is in hospital for the same reason.

The school van is going through to Grassland regularly. The road is right through except for a short distance by Mr. Harry Fisher's where there is a short detour on his field as the road is drifted in that spot.

Miss Jeannie Diotel of Grassland came to visit Miss Rosie Ilnicki for the week-end but terminated her visit on Saturday when her brother arrived to take her home as she was needed there.

Mr. Mike Klimuik took Mrs. Doris Harpetz, Mr. and Mrs. Yakimuk, Mrs. Sawchuk and Mrs. Moroz to Lac la Biche on Saturday, Feb. 5, in his car.

I would like to retract and apologize for an item stating that Mrs. Frank Ilnicki was in Lac la Biche hospital, which appeared in the last issue. This item should have read: Mrs. Frank Dudla is waiting at Lac la Biche to enter the hospital.

Mr. Mike Lopachuk has returned from Edmonton after spending a few days in the city having his teeth attended to which were hurt in an accident.

CASLAN NEWS

CASLAN.—Mr. and Mrs. Harry Wolansky were Lac la Biche for a brief visit.

There was the average crowd at the dance in the Caslan school on Friday night which included a number of young people from Noral. The local orchestar supplied the music. Mrs. O. Trenchie won the raffle and Olga and Peter Patrick received the prizes in a dance contest.

HYLO DISTRICT NEWS

HYLO.—Mr. Pete Warren made a brief visit to the city last week.

We can certainly hear the "put-put" of the engines and "creak-creak" of the heavy-laden clothes lines now that we have two agents for washing machines in Hylo—Mr. Julius Keehn for the "Easy" and Mr. Stanley Grandish for the "Thor".

Hylo "Corner Stone Branch" of the Junior Red Cross sponsored a tea on Feb. 4. From the sale of tea and articles made by grades 5 and 6 Enterprise class, as well as a small donation of 50 cents from Mrs. Shurstan of the Gospel Tabernacle, the branch cleared $13,29 which will be sent to Calgary for the Crippled Children's Hospital Building Fund.

We extend our congratulations to the grades 4 and 5 pupils who so aptly served at the tea, as follows: Sherill Lozinski, hostess, poured tea; Walter Stratichuk, cashier; Martin Bjorgan, salesman of Enterprise articles; Phyllis Bjorgan, Dagmer Kennedy, Irene Waschuk, Paul Pohalski and Ed-Smith, waiters and waitresses. While last, but not a bit least, Grace Grandish and Mary Kaduk carried out the jobs of cooks and dish-washers.

Mrs. B. Meardi, their teacher, especially expresses her pride in their success.

Hank and The Boys, Hylo's orchestra, sponsored a Red Cross dance on Feb. 4, but due to the bitter cold it was not very well attended. $3.50 was cleared which will be sent to the Crippled Children's Hospital Building Fund.

Mr. and Mrs. Stanley Grandish, Grace and Bobby motored to Smoky Lake for a brief visit with all their relatives there.

Feeling a bit low, Mr. Mike Owchar went to the city, Feb. 3 to visit some doctors and to get a thorough check-up. We are anxiously looking for his return in finer spirits.

Mr. A. Marini has purchased a reconditioned organ in very excellent shape, for the Misericordia Church. As son as the weather warms up all the Catholic young folks will start choir practices under the direction of Mrs. Elda Keehn.

Feb. 12 is the annual ratepayers meeting in Hylo. Let's all come out and share our views about the present educational set-up.

Feb. 13 will be Home and School day. Here is where we can really do something about our educational set-up in Hylo as well as share views about it.

Come, fellows, don't shiver and shake at the knees! The Hylo Co-op Store has just received a carload of coal which you can have right out of the car.

If you're looking for bargains, you had better come and shop at Stanley's. A clearance and bargain sale has been in progress since Feb. 1 and will last until Feb. 19. Time is getting short!

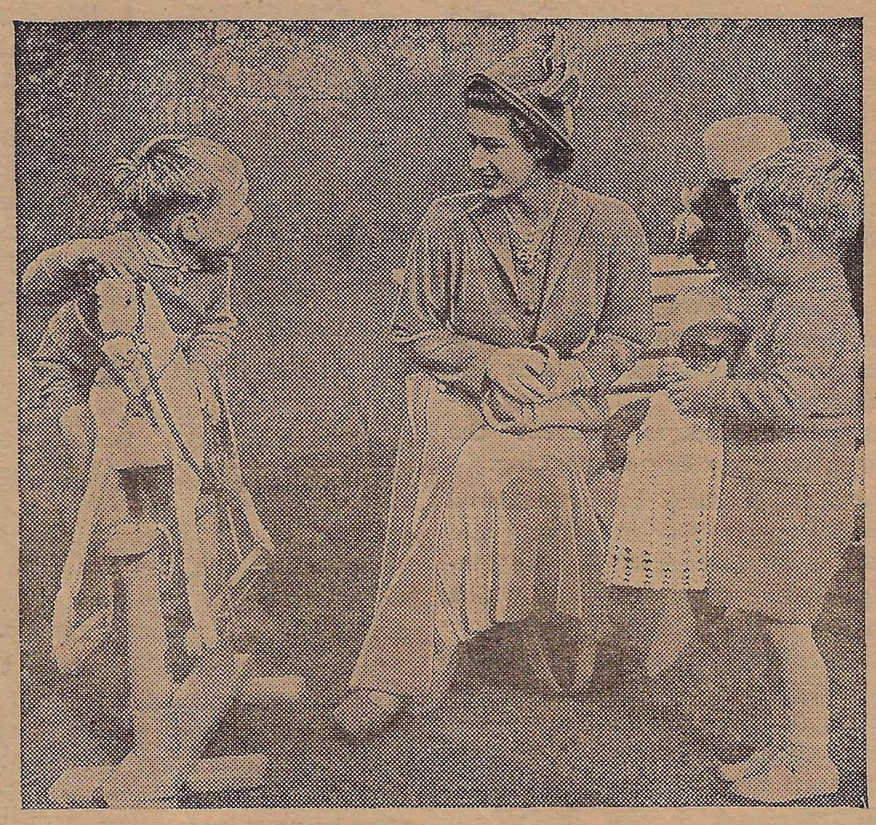

Mr. Grant has been visiting his daughter, Mrs. Henry Michetti, since Feb. 7, when he arrived in Hylo from Waterways.

Mrs. S. Lukasik went to Lac la Biche Friday night on the train.

Mr. A. Sterner returned home after a short trip.

Rumor has it that a very quiet annual school meeting was held at South Noral school. Results are not know as yet.

PRINCESS AMONG THE CHILDREN

Wearing a new-style high-crowned hat Her Royal Highness Princess Margaret sat among the children and listened, smiling, as little Ronnie Smith, aged three, told her all about his rocking horse, when she visited the St. Christopher's (Dr. Barnardo's) Home at Tunbridge Wells, Kent, recently.

FREEDOM FOOTNOTES

FREEDOM. — The Willing Workers had an interesting meeting at the home of Lilly and Laurel Bruns. The girls cut out a dress pattern to fit Florence Anderson and Florence is having quite a time sewing it. I think she will cut her own pattern the next time. Our next meeting will be held at the home of Alva Donnelly on Feb. 9.

We all wish Mrs. Ed Donnelly and Mrs. Fred Meyers a very happy birthday—and many more.

Clarence Mathews escaepd being pulled into a buzz saw last week. His shirt and underwear was badly torn. Be a little more careful, Clarence!

This winter weather gets the best of a person. Ask Aino, he knows, especially when his saw won't work right.

Why is Don so glum lately? Didn't you get a letter, Don? Tough luck!

We wonder how Oskar gets all those pretty pin-ups?

We saw two busy men shovelling snow like blazes last Monday night. We wonder who they could be!

We are sorry to hear Erna Lehman is at home in bed with the mumps. We wish him a speedy recovery.

Mr. Rezac was seen making his usual trip to Freedom on Saturday afternoon.

Erna Moltzan was home over the week-end. She likes her job in Edmonton but misses her friends at Freedom.

Adam Hauch, Jr., now employed with the Gulf Oil Co. spent the week-end at home.

The F.U.A. meeting was held in the Freedom hall on Feb. 3. Hans Pruess and Adolph Littke (delegates), made reports concerning the Farmers' Convention held in Calgary. The film from the National Film Board was interesting. Lunch and a social gathering followed. An enjoyable time was had by all.

CORRECTION

LAC LA BICHE. — The Rev. Father Menard has no interest in the Alfred Beaudoin Store recently opened. Our apology to the Rev. Father.

Men's Bowling League

LAC LA BICHE. — League standing after games played on Thursday, Feb. 3.

EGG LAKE NEWS

EGG LAKE. — Miss Judy Deschatelets has returned from her holidays. She is staying with her sister.

Mrs. Gerald Johnson and daugter of Plamondon are visiting her aunt, Mrs. Frank Bouvier.

A brush cutter is working in the Egg Lake district.

Miss Mary Dionne has returned to her work in Calgary.

Mrs. Luc Dionne went to Calgary to visit her sister. She has returned and we are glad that she made a successful trip.

Mr. Armand Richards has built himself a house near Plamondon. He will soon move in with his wife and son.

St. Catherine's Hospital News

LAC LA BICHE.—Born to Mr. and Mrs. John Booker, on February 6, a daughter.

Receiving medical treatment: Mrs. Narcisse Mouille, Craigend; Mrs. Earl Kanzig, Grassland; Mrs. Albert Le Rouzic, Atmore; Alex Moraz, Blue Jay; Mrs. Edmond Guinand, Lac la Biche; Mrs. Mike Hamar; Mrs. Mike Fyith, Lac la Biche.

Weather

LAC LA BICHE—Temperatures for week ending 05.30 M.S., February 7:

Maximum	11.2
Minimum	–25.4

KIKINO NEWS

KIKINO. — Mrs. T. M. Johnston, the school teacher, was taken to see the doctor this morning. She has been in bed since Friday.

Mrs. C. Thompson is starting to recover from a short illness. She has been in bed over a week now.

Mr. Leo Thompson is busy sawing wood around here for the people for the last week and still he hasn't finished. He says the new tractor works good.

The school inspector visited the school on Friday but the teacher was sick. He is to return this week.

Amateur Hour Held Jan. 28

LAC LA BICHE.—The Ladies' Aid sponsored an amateur hour in the Memorial Hall. Alec Proctor was master of ceremonies. Prizes were won by:

Group 5-10 years: 1, Victor Michetti, solo, "Smiles"; 2, Ken Michetti, solo, "Slow Boat to China."

Older Contestants: 1, Bernice Beaudry, solo, "I Am So Glad That Jesus Loves Me"; 2, Marg. Tisheniuk, impersonation; 3, Mabel Arnfinson, solo, "Lavender Blue."

Comedy prize was given to Gerald Varze for his dance and song "Margie."

Performances:Delores Michette, two piano numbers; Mrs. Glame, solo, "My Happiness"; Sunny Duplessis, accordion solos; Margaret Tishiniuk, two guitar numbers with songs; Mrs. Don Mack, monologue, "Betty at the Baseball"; Ethel Phillips and Aveleigh Brinsmead, songs; play, "Rummage Sale," which was acted very well. Put on by the ladies.

The amateur hour was a great success.

MISSION NEWS

LAC LA BICHE.—The girls and boys from the Mission School are selling tickets on a beautiful walnut chest. They will appreciate your help. Their teacher, Rev. Fr. St. Gratien will buy a new radio for the school if they have success with the raffle.

Joe Cloutier and his wife were visiting relatives and friends lately at St. Paul. They were accompanied by Mr. and Mrs. Blowers who are now residents at the Mission. We wish them lots of happiness here.

Narcisse Ladouceur and Charlie Boucher left February 4 for Beaver Lake to fish.

Rev. Father Menard and Antoine Bouvier went to Colington on a business trip.

GOURIN NEWS

GOURIN. — Mr. Louis Ulliac, accompanied by Mr. Andre Ulliac and Miss Theresa Ulliac motored to St. Paul, Alta., last week. Mr. Andre Ulliac and Miss Theresa Ulliac remained in St. Paul for a week. They attended the Jeunesse, Agricole, Catholique.

Mr. and Mrs. Daniel Bourassa are the proud parents of a son born on Jan. 28.

Miss Rita Favennec spent the week-end with friends at Atmore.

On Jan. 6 little Maurice Boulanger broke his arm. He still has it in a cast. We wish him a speedy recovery.

Better Pillows for Restful Sleep

By RUTH WHALEY

Do you wake up in the morning feeling tired? So often you do not rest as well as you should, because your mattress or pillow has really seen its best days. To assure restful sleep, it may be better to buy new pillows than to try to fix up your old ones. To tell whether or not your pillow is still useful, lay the pillow flat and press down in the centre with both hands. If the filling does not rebound, it no longer has proper life.

Today we can buy pillows at reasonable prices and there is no reason why lifeless, old pillows cannot be replaced. A good pillow supports the head so the neck muscles rest comfortably. It should be light in weight, resilient, buoyant and free from dust, odors and stiff feathers that may work through the ticking. The label should tell you with what the pillow is filled and also guarantee that the filling material is sterilized.

Of course down pillows are most expensive. A pillow filled with a mixture of down and duck or goose feathers is satisfactory because the feathers prevent the down from matting or packing.

Goose feathers are considered good because they are strong and fluffy. Both duck and goose feathers have a natural curl which gives a long lasting resiliency. Chicken and turkey feathers must be artificially curled. In a few years this curl disappears and the feathers mat. Chopped or crushed feathers are not desirable pillow fillings.

Pillow ticking should be closely woven, unsized twill or sateen. If someone at your house is allergic to feathers, you can buy pillows made from shredded or solid latex foam, or of very fine glass particles called fibreglass. If you don't want to buy new pillows put a plastic pillowcase under your regular pillow case to keep feather dust inside the pillows.

TRY A CLASSIFIED AD. IT PAYS!

Alberta Liberals Call for Tax Cuts

Convention Also Favors Curb on Export Gas

CALGARY.—J. W. Stambaugh of Bruce, Alta., was re-elected president of the Alberta Liberal Association at the final session of the organization's annual two-day convention.

J. O. Starritt of Nanton, Alta., was elected interim president of the Alberta Young Liberal Association, which was set up yesterday. Plans were laid to hold a Young Liberals' convention in the near future.

INCREASED EXEMPTIONS

A lengthy discussion on the federal government's income tax policy highlighted the final session with delegates finally approving a resolution calling for immediate substantial reduction in income tax with increased exemption in the lower income groups.

One delegate speaking from the floor of the house in support of higher exemptions said a single man can't even start a shoeshine (business) on what he has left after he pays income tax. And this family allowance isn't a family allowance at all. My wife get it!"

J. Harper Prowse, leader of the Alberta Liberal party, said it "is quite possible that the government will be able to make substantial reduction in income tax this year in view of the $800,000,000 surplus we expect to have in the federal treasury. In addition some money could still be kept out of the stream for public works in time of need."

AGAINST LIQUOR PROBE

Earlier delegates turned down a resolution asking for a thorough investigation of the "liquor traffic" in Alberta.

The motion called for investigation of exisiting conditions and the enactment of legislation designed "in the best interests of the people of the province."

One delegate suggested from the floor of the convention that the Dominion government be asked "to remove the water from spirits" sold through the liquor stores. Other delegates quickly pointed out that liquor is a provincial field.

A motion calling for the use of single transferable votes procedure in federal elections also was defeated.

One of the main resolutions adopted by the 200-odd delegates attending the gathering would ban export of natural gas from Alberta until all residents of the province are protected as to their own supply and cost of the gas. The resolution also placed the covention on record as favornig export of natural gas to other Canadian provinces before its export is allowed to foreign countries.

Other resolutions passed suggested:

Old age pensions should be on a contributory basis with no means test:;

An immediate start should be made on completion of the trans-Canada highway system;

An independent non-political highway commission should be established in Alberta;

Rehabilitation of the dry areas in the province should be carried out through construction of all feasible irrigation projects.

OFFICERS CHOSEN

Other officers elected included: Nelles Buchanan, Edmonton; Allan Cullen, Lethbridge, and H. E. Francis, Calgary, vice-presidents.

Directors: Harley Conrad, Clairmont; William Drayer, Wetaskiwin; Louis Mayko, Vegreville; James Halam, Sedgewick; Dr. H. L. Kickam, Westlock; Mrs. J. K. Jasvanger, Beaver Crossing; Mrs. Daphne Garrison, Vegreville; Mrs. K. Montgomery, Edmonton; Mrs. Hilda Cross, Vermilion.

C. Brewster, Banff; Ralph McKenzie, Lethbridge; Mrs. Alan Purvis, Calgary; Mrs. E. Freeman, Hanna; Mrs. Lucille Moyer, Medicine Hat; Mrs. Joseph Low, Cardston; James Kidd, Medicine Hat; S. A. Miller, Hanna; Edward Fetherton, Nanton; Mrs. Mary Niven, Lethbridge.

Mrs. D. J .Douglas, Edmonton, was elected secretary-treasurer.

Interim officers elected for the newly-formed Alberta Young Liberal Association were: J. O. Starritt, Nanton, president, and Sam Lieberman, Edmonton, vice-president.

Executive officers: Jack Parry, Calgary; T. W. Pue, Edmonton; Lionel Dineen, Edmonton; David Sinclair, Calgary; Hugh Buchanan, Lethbridge; Wallace McIntyre, High River, and William Farling, Bruce.

How to Care for House Plants

Those Christmas gift plants will last longer and bloom more profusely if they are given ample sunlight; if the air is kept cool and moist; if the soil is never allowed to dry out; if they are kept out of draughts; and if insects are kept under control.

The temperature in most houses during winter is generally too warm for most plants—particularly at night. That is probably why grandmother grew better house plants than many of us do today—her rooms were cooler at night. Night temperatures should be 60 degrees or lower, so it is worth moving a plant to the coolest room in the house at night. The exception to this is the Poinsettia which likes warm nights, never below 60 degrees, and does not relish sudden changes of temperature.

A plant needs water when the soil has dried out so that it crumbles in the hand. Most plants are best watered by standing the pot for a few minutes in a shallow pan or saucer containing an inch or two of water. The pot should be removed when the surface of the soil appears moist.

The humidity in most homes is far too low for house plants—particularly cyclamens. Humidifiers or pans of water placed on radiators, will help. Standing the pots on saucers or trays of gravel which are kept moist is another way to provide humidity, but the pot itself must not stand in water.

Pyrethrum or rotenone sprays will kill aphids, white flies and redspider-mites, or nicotine sulphate may be used.

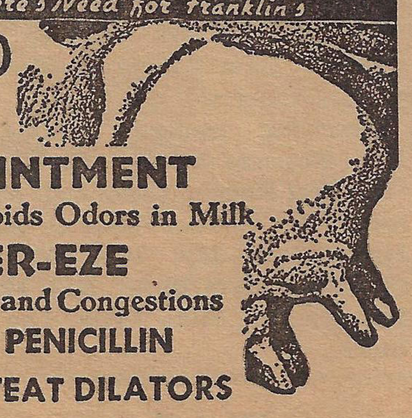

Be careful to avoid leaving house plants in a draught, and if you use cooking gas, remember that all plants are most susceptible to any unburned gas which escapes into the air. It will cause both flowers and leaves to drop off.

October Feed Shipments

Increased domestic movement of concentrates and export of scratch grains accounted for the 60,000 bag rise in the October shipments of prepared stock and poultry feeds according to sample survey figures of the Dominion Bureau of Statistics.

Shipments totalling 2,241,060 bags showed increased movement during October over the preceding month to all provinces except Prince Edward Island, New Brunswick and British Columbia.

N.Z. Dairy Products

An amendment to the New Zealand Dairy Produce Commission Act has been passed by the New Zealand parliament extending the control of the commission to all dairy products for export. Formerly only the export of butter and cheese was under control, but now the commission has authority to regulate exports of condensed and powdered milks, lactose, casein and other dairy products.

Meat Exports To U.S.A.

Exports of dressed beef and veal to United States, from the lifting of the embargo on August 16, 1948, to the end of 1948, were 84.7 million pounds or the equivalent of approximately 169,470 carcasses of 500 pounds each. In addition exports of beef cattle for slaughter and feeding, in the same period, were 241,380 head. There were no such exports in 1947 due to restricting regulations.

Feeding Potatoes To Livestock

Normally potatoes are not considered to be a standard feed for livestock. When crops are good and markets limited, low grade stock, small and cull potatoes may be disposed of profitably as livestock feed. Farmers and growers having a surplus of potatoes would be well advised to consider the value of marketing a portion of their crop through farm animals.

Analysis shows that potatoes contain about twice as much dry matter and total digestible nutrients as do common root crops such as mangels and turnips, and that they are about equal to corn silage in dry matter and total digestible nutrients. They are, however, practically free of fibre and should be looked upon as a watery concentrate rather than a succulent roughage. Potatoes are low in protein and because of this, a ration containing potatoes must be balanced by the inclusion of some protein-rich feed. The vitamin content of potatoes, too, is almost negligible. In the case of cattle and sheep, the feeding of well cured mixed or legume hay will overcome this deficiency.

To assist farmers in feeding potatoes to livestock, the Dominion Department of Agriculture has published a circular on the subject. This includes information on methods of feeding, in the raw form, cooked, as silage, or dried, and gives results of experimental feeding of potatoes at Dominion Experimental Farms to various classes of livestock. It concludes with suggested well-balanced rations, including potatoes, for all kinds of livestock.

The circular may be obtained from the Dominion Department of Agriculture, Ottawa. Ask for Publication No. 818, Potatoes for Livestock.

Ice Storage Need Not Be Costly

If a source of ice is available nearby for cutting, it does not need an elaborate ice-house to store a reasonable quantity of ice for use later in the year. Any unoccupied corner of a shed will serve as a site for a rough-board enclosure. An enclosure ten feet square and eight feet high will hold enough ice to provide 50 lbs. a day for 130 days, after allowing for a reasonable amount of wastage. The smaller the quantity stored, the larger the proportion of wastage.

The bottom of the enclosure should be covered with about one foot of sawdust. If the soil beneath is impervious clay it will be better if there are a few inches of gravel below the sawdust. In putting in the ice the boards can be taken away from one side, and be replaced when the ice is in position. A space of one foot to be filled with sawdust, should be left between the ice and the boards. The ice should also be covered with sawdust.

It is the sawdust that keeps the ice from melting, and the drier the ice the longer it will keep.

Belgian Tobacco Imports

During the first ine months of 1948 leaf tobacco imports into Belgium totalled 32.3 million pounds. Nearly 70 per cent was supplied by the United States, followed by Brazil (7 per cent), the Dominican Republic, and India. Imports from the United States in 1947 amounted to 64 per cent of the total, and in the period 1935-39 they were only 33 per cent.

The insecticide pyrethrum is prepared by grinding the flowers of certain species of chrysanthemum.

NEW SAREPTA NEWS

NEW SAREPTA — Mrs. John Kublik of Ellerslie spent a week visiting her daughter-in-law, Mrs. H. Kublik and family, and her son, Mr. O. Kublik, his wife and family.

Mr. and Mrs. J. Knopp visited Mr. and Mrs. H. Lehman, Sunday.

Mr. and Mrs. L. Trempner, Mr. and Mrs. F. Schlender, Marvin, Jerold and Everett Trempner and Freddie Schlender attended the hockey game Sunday.

Mrs. T. Birkholtz and Miss I. Ertman spent the week-end in Edmonton.

Mrs. A. Wedman is a patient in an Edmonton hospital.

English services were conducted by Rev. Wilkie in St. John's Lutheran church Sunday morning.

Mr .L. Trempner has installed a new hoist in his garage.

Mrs. B. Elgert has returned home from visiting relatives at Westlock.

Mrs. A. Johnston entertained the bridge club Wednesday. Mrs. A. Janke and Mrs. H. Wolfe were prizewinners. Those present were Mrs. A. Janke, Mrs. L. Trempner, Mrs. H. Wolfe, Mrs. A. Wagner, Mrs. H. Wegner, Mrs. T. Berkholtz and Mrs. F. Schlender.

Clarence Kadatz was home from Concordia college for the week-end.

The oil well to the north of town is down past 3,000 feet.

The Students' Union of New Sarepta held the monthly meeting Friday. Plans were made to purchase a movie projector and a hotplate.

Mrs. Tober of Hay Lakes was a guest of Mr. and Mrs. Henry Tober.

Allan Olsen is home from an Edmonton hospital where he was treated for a broken arm.

Mr. B. Elgert is carpentering in Edmonton.

Rev. Brust of Swan River, Man., has been preaching revival services at the Evangelical church for prizes are being offered for the best amateur performance and anybody is welcome to enter. Miss F. Miller and Mr. Arnold Wedman are in charge of entries.

Mr. and Mrs. A. Fipke announce the engagement of their eldest daughter, Gertrude, to Mr. S. Kehlert of Bruderheim. The wedding is expected to take place in spring.

A number of Rolly View hockey fans attended the Regina-Edmonton game in the arena on Friday night.

CARDIFF NEWS

CARDIFF — The population of Cardiff has been increased by one. Yes, Mr. and Mrs. Sidney Weiss are the proud parents of a baby boy. Donald James Weiss was born on Feb. 5 in the Royal Alexandra hospital weighing seven pounds, nine ounces. Both mother and son are doing fine.

Besides having a new baby in the family a new house is also coming up for Mr. Weiss. It is situated on his farm a mile from Cardiff. They expect to have it completed by spring.

A surprise farewell party was held for Shirley Parker on Friday night. Her Cardiff friends sponsored the social gathering before she leaves for her new vocation of nursing. The dance floor was continually filled as everyone enjoyed dancing to the music of Cardiff talent which included Laura Vian, Mr. Saunders, Frank Bokenfohr, Lambert Wourms, Emile Shaeffers, Floyd Vollroth, and even Shirley herself.

Monday opens a new life to her when she steps into the Misericordia hospital as a student nurse. I'm sure everyone here wishes her the very best of luck in her chosen career.

Things do happen on these Cardiff farms! The other day Mrs. Saunders was quite pleased when she found an extra large chicken egg. But what surprised her was that when she broke it open she found, surrounded by egg white, another perfect egg inside the first one. That time she really got her chicken's worth.

The annual school meeting was called for February 4 and a large attendance expected.

TRAVEL BY BUS!

New PURITY "Apple Queen"

. . . is a wonderful dessert

You'll make it again and again and, of course with Purity Flour. So scrumptious, such a tangy sweetness atop a feathery cake . . . and per serving so economical.

PURITY "Apple Queen" CAKE

3 tablespoons butter
¾ cup brown sugar
3 or 4 medium sized apples
5 red or green cherries
¼ cup shortening
½ teaspoon vanilla extract
¾ cup granulated sugar
1 egg
½ teaspoon salt
4 teaspoons baking powder
2 cups siffed Purity Flour
1 cup milk

First—Melt butter in 7 or 8 inch square baking dish, add brown sugar and spread the mixture evenly over the bottom of the dish. Pare and core apples and cut each one in sections lengthwise. Set in rows in the butter-sugar mixture. Place a cherry in each corner and one in the middle.

Now—Cream shortening, add vanilla. Gradually add sugar and blend well together. Add well-beaten egg. Mix Purity Flour, baking powder and salt and sift together 3 or 4 times, then add alternately with the milk. Pour this batter over the apples in baking dish and bake in a moderate oven (350°F.) for 40-45 minutes. Invert to serve. Remove from the dish as soon as baked. Serve hot as is or with a sweet sauce, or serve cold with whipped cream.

Best for all your baking . . . that's Purity Flour. Women who bake and bake depend on Purity for uniform results. It's the flour that's milled from Canada's fine hard wheat and sold everywhere.

WANDERING RIVER NEWS

WANDERING RIVER. — Roads in the Wandering River area have had their first snow plowing already, so visitors are all welcome.

A big dance was held in the Wandering River community hall with Plamondon orchestra and sure enough everybody had a whale of a time. Tommy Roskewich and Paul Germain ended up with a very bad headache, although a very cold night it was.

Everett Smith was driving home from the dance with his team of horses and a cutter and ran into the side of Peter Haluschok's car. Settlement for damages was made.

Mr. Tommy Horn has returned to Wandering River after a month's vacation in Edmonton with his family and friends.

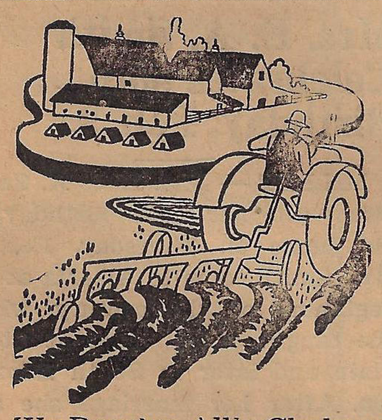

Mrs. Antonette Meyer is in Breynat visiting her parents and friends for a period of one month. Her husband, Mr. Bud Meyer, is expected to arrive in Breynat by car to join his wife, then journey back to Fairbanks, Alaska.

Mr. Metro Trefanenko has returned to the logging camp, working for Mr. Metro Watamaniuk and George Shapka.

Mr. Pete Trefanenko moved to his home place last week and figures on farming.

Mr. Walter Piontek of Amesbury, Alta., hired a couple of immigrants from Poland last week, a man and wife.

GRASSLAND NEWS

GRASSLAND. — Mrs. D. S. Semeniuk returned Friday from a trip to the city accompanied by her parents, Mr. and Mrs. Nykolyn of Sarrail.

Miss Williams, district nurse, has been busy immunizing children against diphtheria, and also had a race with the stork to the home of Mr. and Mrs. Chapordalo of Frains, on Sunday.

Martin Murowchuk and Joe Petroski, while working at Fred Johnson's mill, were both injured last wek, but expect to be back at work soon.

Mickal Nehrebnzky, a newcomer from Europe, is getting ready to erect his shoe-repair shop next to Ted's Cafe.

Nick Semenchuk's new warehouse and show room is nearing completion.

When a man bites a dog—that's news. When a pedestrian collides with your car, that should be news too. Anyway, Earl Kanzig is still running around with a broken wind-shield.

Mr. Hugh Montgomery, school principal, made a quick trip to the city last week-end.

J. W. Graham To Ottawa Post

It was announced recently by the Dominion Department of Agriculture that James Wesley Graham, Moncton, N.B., has been appointed Associate Chief, Livestock and Poultry Division, Production Service, Dominion Department of Agriculture, Ottawa. He succeeds James A. Telfer, who retired recently.

Mr. Graham, who has been District Fieldman, Livestock and Poultry Division, Production Service, and Officer-in-Charge of Marketing Service for the Maritime Provinces since 1945, was born May 4, 1893, at Brysonville, Que.

Following service with the Canadian Army in the First World War, he graduated from McGill University in 1922 with the degree of Bachelor of Science of Agriculture.

In June of the same year, he joined the Dominion Department of Agriculture.

Poultry React to Weather Changes

During the winter months when cold and allied respiratory troubles are to be guarded against, lowered vitality is often caused by bad conditions inside the poultry house following sudden changes in the weather.

Over a period of many years of recording egg production at the Dominion Experimental Station at Harrow, Ont., says W. F. Mountain, it has been found that steady cold weather does not greatly affect vigor, but high winds or dampness do have a particularly depressing effect on poultry. Consequently, the prevention of any draughts is important in flock management.

While it is hardly possible to construct a poultry house which will provide ideal conditions through every variation of weather, proper insulation and adequate means of ventilation will help. Generally, the type of ventilation should be designed to suit the climate, but nearby trees, hills or buildings will often cause air currents for which provision must be made. Whatever kind of ventilation is considered most suitable, whether cotton screen, sliding sash or baffled slots, they should be kept in free working condition in order that adjustments can be made quickly and easily.

Perhaps the most important time for good judgment by the operator is during the night hours. Rain or snow beating in through open air vents results in wet litter. Usually, weather forecasts can aid in deciding upon the ventilation needed during the night.

It is not necessary or practical to pamper poultry, but when an effort is made to establish uniformity of temperatures, dry surroundings, and moderate air movement in and out of the house, good health is usually the result.

LEGAL NEWS

LEGAL.—Mr. and Mrs. George Montpetit went to Bonnyville last week-end.

Mr. Webster is in Legal for a few days.

Miss Gladys Graves was in Legal for the week-end.

Leo Garneau, Paul and Denis Mercier and Fred Henry are in Calgary attending a General Motors convention.

A shower is to be held on Friday for Raoul St. Jean who is to be married to Miss Rita Demers shortly.

One of Mrs. Emile Pelletier's sisters died in Quebec recently.

Mrs. Ray Prefontaine has gone to Calgary to spend a few days with relatives.

A dance will be held at Mr. Prefontaine's old house on Wednesday night. The returns of the dance will go for the benefit of the Carnival Candidate Janet Kaene.

The ladies' meeting will be at Mrs. Remillard this week.

A sale of home cooking will take place. The money obtained is to go for one of the Carnival Candidates Jacqueline Ginquere.

School Notes

ST. ALBERT — The St. Albert school wishes every success to the new rink committee. This rink committee represents the organizations of St. Albert. Mr. John Scott, president; Mr. A. Blair, secretary.

We also understand that a caretaker has been appointed.

The pupils of the St. Alberta school pledge their co-operation concerning adherence to the skating schedule.

On behalf of the school we urge everyone to support the community shows. A number of people work hard in order to put these shows on and we feel they are both entertaining and relaxing. Profits made from these shows will be used in the improvement of the schood and grounds. The shows will always take place on the first and third Friday of each month.

Feb. 18 will be showing "Courageous Doctor Christian," starring Jean Hersholt with Dorothy Lovett and Robert Baldwin.

March 4, "Black Beauty," starring Mona Freeman, Richard Denning. Watch this column for future shows.

A great big hilarious Mardi Gras dance will be held in the St. Albert community hall, March 1. This dance is sponsored by the St. Albert School Students' Union. Come and spend a big enjoyable evening before Lent.

Curling Club Well Represented at 'Spiel

MILLET — The Millet Curling Club representatives for the McGavin trophy won their games at Leduc last week. They defeated the Leduc entry quite effectively, retiring them in the 10th end. They then played against the Devon entry. This was a decidedly good game, tied at the home stretch with Millet being the final winner.

The rink, skipped by J. O. Barth, included Martin Moen, Peter Olesky and C. H. Thompson. They are due to play on the 12:00 o'clock draw on Friday, Feb. 4, in Edmonton. A number of local enthusiasts went to the city to watch the game.

At Wetaskiwin Hospital

MILLET — Terry Womacks, son of Mr. and Mrs. R. R. Womacks has been a patient at the Wetaskiwin hospital following an operation for appendicitis.

Attended Edmonton Annual Bonspiel

MILLET—Mr. J. O. Barth supported by C. H. Thompson, Peter Olesky and Martin Moen won their first game on the 12:00 a.m. draw, Feb. 4, from a Bentley rink for the McGavin trophy but were knocked out of the competition on the 9:00 p.m. draw by a rink from Willingdon.

Mullen's Agency Changes Hands

MILLET — Robert G. Mullen has sold his Mullen's Agency and Realty business to his brother, J. R. Mullen, who will take over within the next month. He is moving to California where he plans to make his home. He will move as soon as he gets his local business transferred.

Mr. J. R. Mullen has sold his herd of Holstein milk cows and also sold his farm in the Hillside district. This was purchased by Henry Ohlmann.

Mrs. Ross Appointed To C.F.A.

MILLET—Mrs. Winnifred Ross of Millet has been appointed to the board of directors of the Canadian Federation of Agriculture at the annual meeting held in Saskatoon recently. She, with Mrs. C. A. Campbell of Parkenham, Ont., represent a national committee of farm women across Canada. It is the first time women have been appointed to this board.

Jasper-Edson Federal Liberal Association To Nominate at Edmonton

The executive of the Jasper-Edson Federal Liberal Association will hold a convention in the Masonic Temple, Edmonton, on Feb. 11, 1949, for the purpose of nominating a candidate to represent the constituency in the forthcoming election, and to elect new officers.

Registration will begin at 9:00 a.m., and the meeting will open at 10:00 a.m.

Each polling division is entitled to a delegate for each 50 names or major fraction thereof on the last federal voters' list.

G. D. McLellan of Jasper is president of the association and H. D. McLeod of Spruce Grove is secretary-treasurer. At a preliminary meeting held in conjunction with the annual meeting of the Alberta Liberal Association in Calgary, officers of the Jasper-Edson constituency expressed their sincere desire that all those interested make a special effort to attend the nominating convention.

Millet Hockey Team Registers Two Wins

MILLET — The Millet Senior Hockey team scored a decisive victory over the Wetaskiwin Junion All Stars in Wetaskiwin Sunday afternoon, with Harry Schultz, Bob Mullen and Henry Theil scoring two goals each, while Gordon Schultz, Dudley Wagner and Jimmy Mullen tallied one each, making a 9-2 score.

It was a good, clean, fast encounter but unfortunately in the final period Jack Stal was cut on the ear, needing eight stitches to repair him and Malcolm McAuley needed four stitches to repair his eyebrow which was cut open by a high stick.

On Tuesday night the Conjuring Lake Hockey team visited Millet ice, but this team was no match for the Millet seniors. The score was too over-balanced, 12-1 with Malcolm McAuley hitting the goal for six points. H. Theil for three, Harry Schultz for two and Johnny Kolesar for one tally. Gilbert Furness acted as referee for the encounter.

Overheated Stove Causes Fire

MILLET—An overheated stove caused a fire in the one-roomed apartment occupied by Miss Ruby Jensen, daughter of Mr. and Mrs. Nels Jensen of Millet. Miss Jensen and a friend who work in Wetaskiwin, had left for work in the morning after banking the fire. The girls unfortunately lost all their clothes and personal belongings.

Mrs. E. A. Smith Celebrates 80th Birthday, Feb. 3.

MILLET — Mrs. Elsie A. Smith celebrtaed her 80th birthday at her home on Thursday, Feb. 3. Mrs. Smith came to Alberta at the beginning of the century where she taught school, first at Stony Plain and later in South Edmonton. After her marriage she and her husband moved to the Bonnie Glen district where they took up a homestead. They ran the post office, and Mrs. Smith also taught the children of that district. After the death of her husband she taught in the Millet school and also at Hardisty for a number of years.

Mrs. Smith has now retired from her profession and is making her home in Millet. She was one of the first Alberta teachers to benefit by the Alberta Teachers' Retirement fund. Mrs. Smith takes an active part in the United Church work and teaches a large class in the Sunday school. She is well and very much interested in all community activities.

MILLET LOCAL NEWS

MILLET — Mrs. C. A. Kent and Mrs. W. W. Wrigley of Edmonton were recent vicitors in the village. They spent the afternoon at a bridge party at the home of Mrs. P. Griffiths and in the evening visited Mr. and Mrs. P. I. Aikens.

Walter Rheil has sold his house. It will be moved to the Patience district as soon as road conditions make it possible. Then Mr. Rheil plans to build a new modern house on the old site.

Mr. Thomas H. Howes is attending the National Red Poll Cattle Association convention at Kamloops, B.C. He will go from there to Vernon to visit his sister, Mrs. McNaughton.

A most successful skating party was sponsored by the Millet post of the Canadian Legion on Friday evening, Jan. 28. The ice was crowded with merrymakers and coffee and hot dogs were provided for all skaters.

Hay Lakes Defeats New Sarepta At Hockey

NEW SAREPTA — In a hockey game at Hay Lakes Wednesday Hay Lakes defeated New Sarepta high school 5-3. Goals for Hay Lakes were scored by Dennis Grahn, Ronald Zutch and Rodney Roth. For New Sarepta by Everett Trampner and Donald Knopp. The game was refereed by Oliver Knopp.

Exciting Pee-Wee Hockey Game

HAY LAKES — Friday, Feb. 4 was an exciting time for the Hay Lake Pee-Wees, for around recess Armena Pee-Wees came to play hockey. When the first period was over the score was 2-0 for Armena. Their goalie froze his toes. In the second period they made one score to make it 3-0. When the third period was over the score was 5-0 for Armena.

Hay Lakes' line-up was: Harold Leicht; Keith McLean, Bernie Alpell, Norman and Bobby Rosiechuck, Ronald Rachoe, Donald Britton, Billy Sware, Richard Lofgren and Otto Lachman.

The game was very exciting although Hay Lakes lost. Billy and Otto hit the goal post about 10 times. Better luck next time, Pee-Wees!

Bingo Party Raises Funds for School

HAY LAKES — A successful bingo party was held at the Hay Lakes school on Friday evening, Feb. 4. The proceeds ($68.63) together with the balance of $21.27 from the Christmas fund will be used to provide playground facilities for the youngsters of Hay Lakes.

First, however, a combination radio-phonograph will be purchased for the school. The divisional board pays half the price and buys the radio at a considerable saving for the school.

It is hoped to have another social evening in the school before the end of the month, the proceeds to go for the same purpose — village playground facilities. This worthy project is sponsored by the school and deserves the continued support of everyone.

United Ladies' Aid Holds Meeting

MILLET — The Millet United Church Ladies' Aid held the February meeting at the home of Mrs. W. E. Wood on Thursday, Feb. 3. There were 13 members and four visitors present. Plans were made for the annual spring tea and sale of home cooking which will be held the Saturday before Easter Sunday. Aprons and children's dresses will also be sold at this tea. Material was given to members at the meeting. These will be made up before that date.

The matter of raising the insurance on the church was discussed. This matter will be brought up before the church board.

Following the business meeting a delicious tea and afternoon lunch was provided by the hostess. As Mrs. Kerr, the president, was unable to attend the meeting, Mrs. Wood, vice-president, was in the chair. Her place was taken later in the afternoon by Mrs. Pogue.

MORINVILLE NEWS

MORINVILLE — Mrs. F. Steffes has returned from a trip to the United States.

A surprise birthday party was held Feb. 6 in honor of Mr. A. Reid. A few friends gathered at the Reid home to celebrate the occasion.

Mr. F. Bokenfohr has returned home from hospital.

On Sunday, Feb. 6, the Morinville Cubs defeated the St. John's College team 5-2.

A baby daughter was recently born to Mr. and Mrs. Ovila Riopel.

The first communion breakfast held last Sunday, has been pronounced a great success. The C.Y.O. is off to a good start.

Mrs. M. Orr of Edmonton recently visited at the home of her daughter and son-in-law, Mr. and Mrs. A. Reid.

First Hatch Soon

MORINVILLE—Pempeit's Hatchery here will have their first hatch of the 1949 season off by the end of next week, Feb. 19. Included in the setting are White Leghorn and New Hampshire chicks.

3-Day Conference At Calgary

MORINVILLE — L. H. Tremblay, accompanied by Steve Sypnowich and Ed Wiegand attended a three-day conference of General Motors executives and agencies at Calgary this week.

It's a Pleasure to Shop at Patterson's

● Our Store . . .

Is definitely the finest shopping centre for many miles . . . Clean, Bright and Attractive . . . All goods spotless and displayed so that you can inspect them with ease . . .

VENICE NEWS

VENICE. — Congratulations to Mr. Vincent Zerola and Miss Doris Kerelchuk of Lac la Biche. No doubt about the engagement. Doris was seen wearing a lovely ring.

Miss Stephania Shipka has returned to work in Edmonton after spending a few months at home.

Mrs. Jerry Pelletier of Morinville is visiting at the home of her parents Mr. and Mrs. John Shipka.

Mr. Jean Piquette, Alberta Wheat Pool agent, had a visit from the superintendent, Mr. Don Paterson.

About 16 friends surprised Mrs. Adonias Gingras on Sunday, Feb. 6 for a baby shower. All spent a very enjoyable afternoon when little Donald was showered with lovely presents. A delicious lunch was served.

Two more of our men left for lumber camps, Mr. Adonias Gingras and Arthur Macor.

Rev. Fr. Ouellet, O.M.I., of Venice will be in Breynat Feb. 15 with his projector to give the show "Bells of St. Mary".

A show and a Valentine social will be held in the Venice hall on Feb. 14.

Miss Verona Metcalfe and Marie Macor went on a business trip to Edmonton.

Teen-Time Column

HYLO. — Seeing that spring's coming you gals must be wondering what's what in fashions for this year. Looking through the latest fashion magazines we thought we would give you a few hints.

First for hair. This spring it's being worn short and fluffy, parted on the side. For lipstick and nail polish ask at your cosmetics counter for the color that's the rage of the year, the new "Rascal Red."

Skirts are worn straight with a hint of flare at the back, and are bright in color.

Shoes this year are the Grecian type sandals in red, orange, yellow and striped. And for that special evening date those gold sandals are back in style.

And girls, those bathing suits are new two-piece white or black affairs with cute pleated overskirts and tiny boleros.

Goodybe and Good Fashion,

—TEEN-TIMERS.

PLAMONDON NEWS

PLAMONDON. — Mrs. Arthur Varin left for Edmonton for medical treatment.

Mr. and Mrs. S. Mischuk and family all paid a visit to Spruce Valley last week. A farewell party was being held for Mrs. Mischuk's mother who is leaving Spruce Valley and will make her home in the Boyle district.

Mr. Mischuk and Helen paid a visit to Edmonton this week.

Mr. and Mrs. Philip Plamondon, Jr., and Mr. William Plamondon and Mrs. Wilfred St. Jean all left by car for Edmonton.

Mr. Joe Dragon paid a business trip to Boyle. Looks like Joe intends to start in the logging business from the looks of his equipment.

A First Aid course is being given every Tuesday evening in the Parochial hall. Mrs. H. Jensen, provincial district nurse, is instructing and from what we hear there is a very good attendance and the ladies are very interested.

The Menard Bros. are very busy at their lumber camp and they will soon be finished at their present site and will be moving over to this side of the lake.

The Johnson boys seem to be running a wood business this year.

The Bayview school van is doing a good job and in spite of sub-zero weather, Art still keeps going. The school van is equipped with First Aid kit and fire extinguisher.

BRIEREVILLE NEWS

BRIEREVILLE. — The McRae hockey team gave Briereville a return game on our ice. This time McRae had a good line-up of players, in fact worthy Martin signed on two players that we had some way neglected to get on the dotted line. These two men, Bill Anderson and Jimmy Whelen, not exactly stars when they practised with us, made a tough uphill grind the whole game as opposition players.

McRae tallied first, to be followed by a second some six minutes later. Briereville crossed out the McRae lead in the last dying moments of the first period.

At the end of the third period the score stood 4-4 but the fourth 20 minutes added four more tallies for Briereville as McRae steam again faded out, ending the game 4-8 for Briereville.

The game was slightly rough and tough but Referee Minnie kept things within reasonable bounds by handing out three minors for holding and body-checks. The highlight of the game was possibly Goalie Norman Whitford's ruffled feathers when Peter Erasmus followed his rebound with a body-check when Norman failed to clear the puck. Norman started to brush snow off his opponent with the goal stick. The McRae player merely laughed which possibly hurt the goalie's feelings more than a return with the same stuff.

H. Thompson's appearance with goalie's pads and equipment drew quite a kick from the ground. The regular goalkeeper, Chalie Squirrel was present but suffering from a bad cold.

FRAINS NOTES

FRAINS. — Mr. Dan and Eddie Shwetz went to Edmonton by truck on business.

Mr. F. Holowenko and Mr. N. Greschak went to Edmotnon by truck on business.

The snowplow is flying around Frains opening up the roads as it is drifted a little. It's the first time this winter, Feb. 2.

Baby Kolmatsky was in Lac la Biche hospital over the week-end.

Mrs. Loposhinsky has received her new washing machine.

M.D. of Morinville No. 91 - Agricultural Service Board—1948 Report

Members: John Schafers, councillor, chairman; N. C. Perrott, councillor; Angus McGillis, farmer member; H. J. Seibert, farmer member; J. M. Fontaine, district agriculturist; Walter Ellett, field supervisor; J. O. Patry, secretary.

1. The board held three meetings during the year 1948; they also made a tour of supervised farms in mid-summer in order that all members would be acquainted with the conditions and problems that they have to contend with. While crop conditions were not as good as 1947, the board considered that satisfactory progress is being made on these farms, several of which are now among the best in the district.

2. There are now 19 quarters under supervision and four under control of the Service Board but as stated above, several are now in a sufficiently improved condition to navigate with a little help. A crop rotation plan is drawn up for each farm by the district agriculturist and the field supervisor and they assist the farmer in putting the plan into operation. Weed control and soil conservation are now the main objectives of the Service Board and a farm is placed under supervision only when action under the "Noxious Weeds Act" fails to bring the desired results.

3. A number of demonstration plots using 2, 4-D on different weeds at various rates of application to determine the effectiveness of this method of weed control was made in 1948. The results were in some cases unsatisfactory, particularly on thistles, while on wild mustard good results were obtained. It is quite evident, however, that 2, 4-D is not a sure-all for our weed problems but it has its place in conjunction with sound practices. Tartary Buckwheat proved resistant to 2, 4-D even at the heavier rates of application. The stage of growth and moisture conditions are factors that have a bearing on the effectiveness of 2, 4-D.

4. A seed drill survey was conducted by the Service Board in 1948 whereby 100 samples taken from seed drills graded by the Dominion Seed Branch revealed that 42 per cent was rejected for seed. This is a deplorable condition and the Service Board has advised all ratepayers that a listing will be made at the municipal office of those requiring seed and also of supplies of seed grain. The co-operation of all farmers is requested in using only clean, pure seed.

5. Some 35 miles of new grades and roadways was seeded to a mixture of legumes and grasses in order to combat the growth of weeds. The Service Board has recommended that the council backslope some of the new grades to be built in 1949 in order that advantage may be taken of hay grown and for control of snow in winter.

6. The use of Fall Rye again demonstrated its usefulness in the control of Wild Oats Wild Mustard, Tartary Buckwheat, and even Thistles barely survive in a good crop of rye. Some 200 acres on supervised farms was seeded to Fall Rye in 1948.

7. Five weed inspectors were employed during the summer months and, with the field supervisor, the weed situation was kept under control. Approximately 500 acres was plowed under or otherwise destroyed following investigations. The field supervisor reports that more co-operation from the farmers with the weed inspectors would be appreciated. The weed inspector has a difficult role to fill and full co-operation with him would be to the advantage of all concerned. Leafy Spurge has now been located on three farms in the municipality and farmers are requested to watch for this and other new weeds. Control in the early stages is easy compared to the work and expense involved in a widespread infestation. Toad Flax is a weed which the Service Board is particularly concerned about, there being considerable of it in the district, and it is very difficult to eradicate.

8. Land under "notice to Prohibit Seeding" involves 3,985 acres which is a small increase over last year. The weather conditions in 1948 were responsible for weeds making headway over crops in many cases and as mentioned previously 500 acres had to be destroyed. The board advises farmers not to seed land which is dirty as it usually causes trouble and expense. A crop rotation including the use of legumes and grasses is recommended as a soil conservation measure and also for controlling weeds.

9. The possibilities of a central seed grain cleaning plant was investigated by the Service Board and while a grant is obtainable from the provincial government for this purpose the board feels that the high cost of building together with some doubt as to the number of farmers that would benefit from such a plan that it was advisable not to attempt construction in 1948.

10. The winter meetings under the auspices of the Service Board numbered 14 with an average attendance of 31 persons. Pictures were shown on soil conservation and weed control and talks given on various farm problems. The Service Board is again sponsoring a series of meetings which, it is felt, are of value to many ratepayers.

11. The Junior Farm Young People's Week held in December by the Department of Agriculture and the Service Board was well attended. Junior grain clubs exhibited their samples and farmers competed with seed grain. Judging competitions for the juniors created considerable interest.

EXPENDITURES

Field Supervisor's Salary	$1,975.00

ST. ALBERT BRIEFS

ST. ALBERT — The C.Y.O. members entertained Henrietta Morin last Sunday evening prior to her departure for Three Rivers, Que., where she will enter a religious congregation. After lunch a presentation was made and an address was read to Henrietta by Jeanne Labelle on behalf of the C.Y.O. and friends present. Then Father Labonte and Father Meehan spoke briefly. We were sorry that Father Gaudet, our chaplain who is ill in the hospital, was unable to attend.

We take the greatest pleasure in wishing Henrietta a hapy life in her new environment.

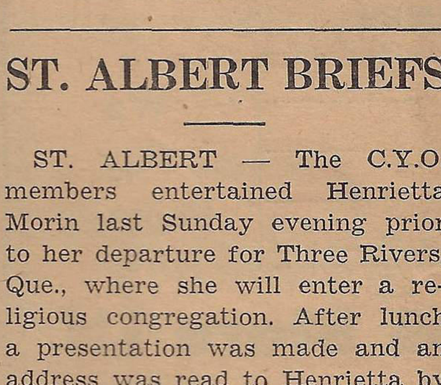

Mrs. Philip Morin received a group of young ladies for lunch at her home on Sunday, in honor of her daughter, Henrietta, who left Tuesday for Three Rivers, Que.

Mr. and Mrs. M. A. Roberts take pleasure in announcing the birth of a daughter. Congratulations!

There is quite a few from St. Albert in hospital. Father Gaudet, Mrs. Leo Belhumeur, Mrs. J. A. Gaulin and Mrs. George Gaulin all went in within a week. We with them all a speedy recovery.

Deaths this week in St. Albert were Mr. Edward Lingren and Mr. Jas. MacDonald. Both were old-timers of St. Albert.

AT THE F. K. DOOL LUMBER YARD

About six a.m. the alarm clock rings.
It's O.K. now boys roll out!
The coffee's boiling, the flapjacks hot.
And it's thirty below, no doubt.
Eight o'clock comes, and all too soon,
And you'll hear the big boss yell
O.K. boys! Are you rearin' to go,
We'll work now for a spell.

Alvin yells "It's too cold out,
My feet are freezing now."
"You'll work," says Fred, or I'll know why,
So lets not have a row."
Then Tony comes a-limping out,
"I sure can't work today,
My leg is almost killing me."
But he goes out anyway.

Soon noon comes 'round and all file in
And sit down to their meal,
Discussing all the accidents,
They've met in this raw deal.
'Mid moans and groans they have gone again,
With Roy far in the lead.
He sure can work like an ox, that lad,
And with a lightning speed.

And soon the logs are rolling in.
Fred dreams as he piles them high,
Of the fun he'll have with a pretty miss
When he makes the money fly.
Six o'clock, and the end of the work,
The time we all like best,
Our stomachs full, we sit about
For hours of fun and jest.

Mr. Dool sits back with a wise old smile,
And dreams of the days gone by.
While we enjoy the music
And how the time goes by.
Fred plays upon his fiddle
And Tony his guitar
While Alvin keeps the rhythm hot
On the accordion—he stars.

Now this is just a summary
Of a day's work out his way.
By this time it is time for bed.
The end of a perfect day.

MILK PICK-UPS

Do you feel only lukewarm interest in preparing meals after the Christmas rush? Meal planning for round-the-clock good eating is a task when you try to serve nutritious meals, and at the same time, keep them interesting. A generous use of milk and its products — cheese, ice-cream and butter — point the way to nutritious eating.

Everyone knows milk cannot be equalled in calcium, but many don't realize it is rich in vitamins especially Vitamin A and riboflavin, important for growth. Nutritious well prepared food is worthless if it isn't eaten — and that is where a clever homemaker shows her ability. A meal that looks good is sure to tempt lagging appetites. Eye appeal depends a lot on contrasting colors, flavors, textures and temperatures.

Choose a crisp salad to go with a soft creamed casserole. Top off a hot meal with a cooling dish of ice-cream. Serve a tangy cheese sauce on mild macaroni or potatoes. Dairy time isn t confined to meal time either. Why not have a wholesome milk shake for a mid-morning lift, or a snack for the children when they come home from school—Try:

BANANA MILK SHAKE

1 well-ripened banana, ¼ tsp. vanilla or few drops lemon juice, 1 cup rich milk, 1 tablespoon sugar. Pulp banana with fork or sieve. Add milk, vanilla or lemon juice and shake thoroughly.

Next week there will be more recipes with milk.

Fashion Note: Handkerchief Skirts

Spectators at a dress show recently held in London were amazed to see an evening dress so reminiscent of 1929-30—that famous year when the short chemise dress was forced to give way to the first long skirted gowns seen for more than a decade—that they rubbed their eyes. But since the younger people in the audience had never in their lives seen anything like it the model received a round of excited applause. This new-old line was made with a long bodice fitted to below the hips with the skirt made of layers of tulle, each layer being cut into a series of handkerchief points. Mr. Arthur Banks, the designer, insisted that the handkerchief skirt, as it used to be called, is due for revival and that one of the reasons why it was likely to return was the introduction of tinted nylon stockings. It was obvious, he said, that women would not wear colored nylons if they were to be hidden beneath a long skirt; on the other hand, his "new" skirt would show them off well. In nearly every dress collection for 1949 there are skirts slashed or cut up in some way to show off the tinted nylon stockings.

"Delcrest" Seed Plentiful in 1949

Canadian tobacco growers are showing great enthusiasm in the new "Delcrest" variety of flue-cured cigarette tobacco, which was introduced as a commercial variety in 1948 by the Tobacco Division, Experimental Farms Service, Dominion Department of Agriculture.

Delcrest—the "Del" comes from the Experimental Farm Station at Delhi, Ont., where most of the final selection work was done—represents a varietal improvement and was developed at the Experimental Farm Station at Harrow, Ont., where the original crosses and black rootrot tests were conducted.

Fifty farms carried out the Division's seed increase program for 1948 so that it is estimated there will be enough seed available to meet the expected heavy demand for 1949 seeding.

Delcrest has proved itself to be more highly resistant to black rootrot than any variety released so far and in tests gave 43 per cent better returns per acre than the average of eight other flue-cured varieties. The returns are based on yield per acre and quality grade obtained.

The new variety is semi-erect in growth, and has an average number of leaves of good color and medium width. The cured leaf is "flashy" in color, has a smooth texture and possesses a rich, mellow aroma. In addition to all this, under comparable conditions, Delcrest apparently matures slightly earlier than standard varieties.

PILLOW CARE

By RUTH WHALEY

Pillows should be fluffed daily and aired occasionally in the shade. Airing pillows in direct sunshine is not recommended because of the drying effect on the natural oils of the feathers. These oils add to the life of the feathers, and to the life of the pillows. Pillow cases should fit loosely. A pillow case that is too tight will make the pillow feel hard and uncomfortable. Sometimes people like to use an extra pillowcase under the regular case to keep the ticking and filling clean.

Extra pillows should be stored in tightly sealed packages to prevent moths getting at them. The ticking should be clean when the pillows are stored. If you wash pillows at home it is very important that they be properly dried.

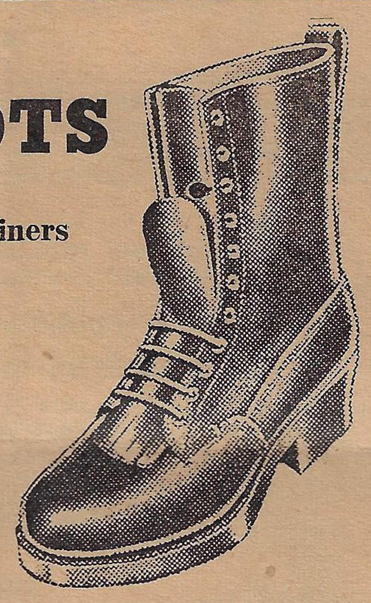

Ling Sing Joins Canadian Scouts

Young Ling Sing, recently arrived in Vancouver from China, speaks no English but has become a full-fledged Boy Scout in the 32nd Vancouver (Chinese) Troop.

His Scoutmaster, William Sinclair, can speak no Chinese, but taught Ling Sing his Tender foot tests through Canadian-born members of the Troop who speak both Chinese and English.

There are now 18 Scouts in the 32nd Vancouver Troop, all Chinese, all in full Scout uniform and a credit to the Boy Scouts Association.

United States Wool

On December 31, 1948, the United States Department of Agriculture announced its wool support program for 1949 which will assure growers an average wool price of slightly above 42 cents a pound, greasy basis. The price approximates last year's support level. It will apply to all types and grades of shorn and milled wool produced in the United States and territories.

FARM NOTES

GRASSHOPPER WARNING

Danger of serious grasshopper damage over wide areas in central and southern Alberta is forecast for 1949. In three of these areas, from 40 to 70 per cent crop damage may occur unless plans are made to meet the threat.

W. Lobay, Supervisor of Crop Protection, Alberta Department of Agriculture, warns that areas of greatest concentration are the Provost-Bodo area, the Bow Island-Whitla area, and the Taber-Enchant area. The first-named area will cover approximately nine townships in townships 35 to 40, ranges 1 to 3. In the Bow Island-Whitla area, townships 8 to 12 and ranges 5 to 12), approximately 13 townships will be affected. The Taber-Enchant area includes the dry lands between the line from Coaldale to Taber and the Old Man River.

In the Provost-Bodo area the roadside grasshopper will be predominant and in this case the hatch will tend to be continuous along roadsides for considerable distances. In the other two areas, the field hopper will be prevalent. Conditions in the fall of 1948 were very favorable for early development of the field hopper and it is expected that eggs will be in condition to hatch earlier than has been the case for several years past. Control plans should already be receiving attention.

Since severity of infection may become noticeable overnight, councils in municipalities likely to be affected are urged to have everything in readiness for instant action. Early preparation should be made so that materials and organization to cope with the infestation will be immediately available.

In addition to the areas mentioned, Mr. Lobay warns that extensive moderate infestation of grasshopper eggs has been noted from Macleod through to Medicine Hat in an area about five townships wide, and north from Medicine Hat to Bindless along the Saskatchewan boundary in a strip approximately three townships wide. Up to 40 per cent crop damage may occur in these areas unless prompt treatment is available when required.

A moderate infestation is also expected in the Drumheller region with Michichi about the centre. Nine or ten townships are likely to be affected in this area.

District Agriculturists in areas mentioned are fully aware of the situation and will be glad to offer assistance in local planning. Maps showing infested areas will be posted very shortly and farmers are advised to keep in close touch with district agriculturists and municipal officials with respect to developments.

ALBERTA'S CREAMERY BUTTER REVIEW

In a recent review of Alberta's dairy industry in 1948, D. H. McCallum, Dairy Commissioner, advised that total value of dairy production during the year amounted to $56,000,000—an all time record and an increase over 1947 of $9,500,000.

Mr. McCallum said that although in 1948 milk production in Alberta showed a slight decrease as a result of unfavorable spring weather and other factors, the production of creamery butter manufactured during the year showed an increase of 1.2 per cent over 1947. The 1948 total exceeded 32,400,000 lbs. and Alberta was the only western province to show an increase. Of this 32,400,000 lbs., over 18,000,000 lbs. will be exported to butter deficient provinces, mainly British Columbia.

The quality of Alberta dairy products, and particularly the creamery butter, has been a source of pride for many years. During the past year 90.5 per cent of our butter qualified for first grade according to Dominion standards established for export. This is the highest quality on record and the cream producers and butter makers who are largely responsible for this achievement deserve the heartiest congratulations.

First Canadian Scout Jamboree

Enthusiasm is keen among Canadian Boy Scouts for the first Canadian Scout Jamboree to be held near Ottawa next July.

Prince Edward Island hopes to send 35 boys; N.S., 140; N.B., 175; Quebec has 150 registrations to date. Ontario has 361 applications, Manitoba 96, Alberta 200, and British Columbia 290.

Australian Wheat Price

The Australian Minister of Commerce has announced that the guaranteed price for 1948-49 crop wheat will be 6/8d. ($1.08) a bushel bulk f.o.r., compared with the 1947-48 price of 6/3d. ($1.01). The increase is the result of increased production costs and is in accordance with regulations of the Wheat Industry Stabiliaztion Act of 1948.

Drive Against VD Grows

More than $1,000,000 will be spent this year in an intensified drive against venereal disease in Canada, Hon. Paul Martin, minister of National Health and Welfare said here today on the eve of National Social Hygiene Day, Wednesday, February 2.

Of this amount $500,000 represents the venereal disease control portion of the dominion government's new national health plan, he pointed out, a sum which is being made available ot assist the provinces in extending their present efforts in the control of venereal diseases. This represents an addition of $275,000 to the annual grant of $225,000 which the federal government has been contributing to the provinces since 1943.

The additional funds are being used for such projects as free distribution of penicillin, establishment of new VD clinics, payments to physicians outside free clinic areas, the setting up of new laboratory services, post-graduate training for specialists in the field and many other allied activities.

These new projects, Mr. Martin emphasized, will supplement the present control measures which include free distribution of drugs to physicians, maintenance of free clinics now totalling nearly 100, provision of laboratory diagnoses, group case-finding, contact investigations and educational program among the medical and nurssing professions and the general public.

By agreement with the provinces, the federal division of venereal disease control is giving leadership in developing a program for the reduction of the menace of venereal infections in Canada, Mr. Martin stated.

Such activities include planning adequate control measures in consultation with the provincial authorities, co-ordinating and standardizing the methods of control and treatment, providing a consultative professional medical service, assisting in the provision of lay and professional information services, encouraging research and improving training facilities for professional personnel.

"The problem of venereal disease poses a continuing menace to the nation's health," Mr. Martin warned. "To relax in any way our constant fight against this evil would inevitably mean a rise in the incidence of the disease with tis accompanying toll in health and happiness.

"I have been greatly encouraged by the progress made to date by modern approach and treatment, but success in vanquishing venereal disease can only be achieved by the full co-operation of every citizen.

"This co-operation could be fostered in the commuinty by sevreal specific measures," Mr. Martin went on to say. "Communities should strengthen public health measures against venereal diseases and also strengthen their legal and social protective measures against prostitution and sexual promiscuity generally." He emphasized the importance of educational measures to assist parents, teachers, the clergy and youth-serving agencies in giving sound ethical guidance to young people in personal and family living.

Social Hygiene Day is a part of National Health Week sponsored annually by the Health League of Canada. The observance of this day should serve to point up ways both to combat the venereal dissese menace and to maintain health and happy home life in Canadian families, Mr. Martin concluded.

Argentine Corn

It is reported from Buenos Aires that the government trading agency (I.A.P.I.) has reduced the export price of corn from the equivalent of $2.38 to $1.88 per bushel f.o.b. If payment is made in U.S. dollars the price will be further reduced to $1.78 for quantities of 50 thousand tons (1.97 million bushels) and upwards.
